Re: Revisions to "Lower Passaic River, Newark Bay and NY/NJ Harbor: Dredged Material Management (DMM)" Report, dated 22 December 2011 (PRC DMM Report Dec 2011)
Date: 2 May 2012
The revised version of this report, which Ella mailed to you on Friday, is attached. Please ask recipients of yesterday's e-mail to the CAG that the 27 April 2012 version of this report entitled "Lower Passaic River, Newark Bay and NY/NJ Harbor: Dredged Material Management (DMM) of Dioxin Contaminated Sediments" be substituted for the December report for the following reasons:
When I wrote the Dec 2011 report I did not realize that some "unhatched" areas in Figure 4 showing the Corps' "New York & New Jersey Harbor (50 ft Deepening) Navigation Project" had already been dredged. This year I learned that dredging of the Elizabeth Channel and Newark Bay Channel were completed in 2010, and in the revised April 2012 version on page 10 I report how these dredged materials were managed.
Furthermore, as I learn more about Dioxins, I feel that others should be better informed about their impacts on public health. Consequently, I've added a section starting on page 5 entitled "Dioxin Contaminated Sediments: A Major Public Health Concern".
I have studied most of the issues regarding DMM raised by the CAG, and I would be glad to discuss my findings with them.
Anne L. Kruger, Ph.D.
