Subject: Passaic River Community Advisory Group Meeting Has Been Cancelled for Tomorrow October 11
ourpassaic.org
ourpassaic.org
ourpassaic.org
ourpassaic.org
http://passaicriversymposium.eventbrite.com

The following message was sent by Doug Sarno, facilitator of the Passaic River CAG, to CAG members. It is being sent by EPA at the request of the CAG. If you wish to be removed from this group list, please reply via email to me. Thanks.

Please note that there will be NO CAG MEETING on October 11. This is due to the fact that there is really nothing new to discuss as design continues on the 10.9 removal project and we are awaiting access to details from the Focused Feasibility Study. However, there is a lot of important work coming up that will require the CAG's attention, and also note that we will be scheduling our fall meetings as we learn about the availability of upcoming information. Please look at the information below for an update. Also go to the digital library link from ourpassaic.org to find the presentations from the September CAG meeting.

River Mile 10.9 Cleanup (see September presentation at ourpassaic.org)
We received an overview of the 30% design in September and the 90% design is scheduled to be

complete in November. the bench scale studies did not show enough reduction in contaminant concentrations following treatment for pilot testing of sediment washing to go forward so all material will be barged down the river for stabilization and ultimate off site disposal. As soon as the 90% design is complete and available for presentation to the public, the CAG is planning to hold a meeting in Lyndhurst to discuss the design and ensure access to local residents. The date of this meeting will be determined based on the design schedule and available space in Lyndhurst.

Lower Eight Mile FFS (see September presentation at ourpassaic.org)
We received an overview of the cleanup decision for this portion of the project. There are basically two dredging options 1) Deep dredging will remove all contaminated sediments and backfill with 2 feet of sand and 2) Capping with Dredging which will place an engineered cap over the entire lower 8 miles and remove enough sediment to allow for navigation in the lower channel and the cap to be placed without causing additional flooding. For any material removed, there are three disposal options 1) a CAD in Newark Bay, 2) off site disposal by rail to out of state facility, or 3) local decontamination (treatment) and beneficial reuse. Cost estimates range from $1 to $3.4 billion. The CAG has asked for any portions of the FFS which can be released for review prior to the formal release next spring. The CPG has also asked to provide a presentation to the CAG. Once we receive this information on the FFS we will schedule a meeting to continue our discussion of the FFS.

National Remedy Review Board Meeting
This meeting has been set for December 12-13 for EPA to ensure consistency of the lower 8 mile Passaic remedy with other large-scale dredging remedies in the Superfund program. The CAG will be finalizing its input to the NRRB over the coming weeks to ensure that community concerns and values are understood as part of this review, please contact Debbie Mans if you want to be part of that committee process.

Phase 1 Removal Project (see September presentation at ourpassaic.org)
The cleanup work is completed and removal of the enclosure and site demobilization will finish by the end of December.

Odor Complaint
USEPA and NJDEP are scheduled to meet in October to discuss this issue. As all removal work was completed in June, there are no longer any exposures from that project and no air exceedances were ever identified by the extensive monitoring program or issues raised by nearby residents. However, it is still a concern to understand if anything could be attributed to the removal project and the CAG will ask for a complete review of the issue once it is better understood.

Passaic River Symposium
Reminder that the Passaic River Symposium on Friday October 19 at Montclair State University. The CAG has negotiated half-price off the $115 registration rate for members (so you will pay $57.50) To get this rate, you will need to send in your registration and payment by mail as the on-line system will not accommodate the special rate, but information about the conference and where to mail the registration can be found here:
http://passaicriversymposium.eventbrite.com

thanks
Doug
