Matt Stanton's client is the Cooperating Parties Group (group of about 70 potentially responsible parties who are studying the 17-mile Lower Passaic River under EPA oversight).

Hello Alice,

I've lost track of the various individuals and entities involved in the comment process. Who is Matt Stanton's client?

Thanks,

Alberto Santos,

Kearny, NJ

Mayor Santos -

This is a reminder that the EPA's public comment period for the Focused Feasibility Study (FFS) closes on August 20th. I hope you are in the process of drafting comments for submission.

If you require any assistance in drafting your comments, please let me know. I will be happy to assist you and/or meet with/appear before your Council.

Thanks,

Matt Stanton
