**Subject**: RE: PFAS Discrepancy file for DoD/federal facilities

Thank you,

ATSDR published information on three sites where they are involved in investigations. All three are DoD sites. These are presented as DoD sites.

Good Morning Everyone,

I have been reviewing some of the our past communications on PFAS to make sure I wasn't missing anything. I reviewed the DOD spreadsheet and specifically the ATSDR location list in the Crosswalk tab. I wondered how those ATSDR locations made the DOD list and when? I was just out on the ATSDR website and found the following sites reference on their webpage but are not included on the DOD list.

| |
|---|
| **North Bennington PFOA Well Water (VT)** |
| **Hampden County near Barnes Air National Guard Base (MA)** |
| **Community Water Systems (CWS) and Private Wells in Gloucester County (NJ)** |
| **Orange County near Stewart Air National Guard Base (NY)** |
| **Saint-Gobain Performance Plastics (NY)** |

| |
|---|
| Westhampton (NY) near Gabreski Air National Guard Base |
| Blades (DE) |
| Naval Support Center Mechanicsburg (PA) |
| Dover Air Force Base (DE) |
| Berkeley County (WV), near Shepherd Field Air National Guard Base |
| New Castle County (DE), near New Castle Air National Guard Base |
| Former Wolverine Worldwide, Inc. (MI) |
| Air Force Academy, Colorado Springs, Colorado |
| Ellsworth Air Force Base (SD) |
| Oatman Water Company (AZ) |
| Gustavus Airport (AK) |
| Dillingham Airport (AK) |
| King Salmon Airport (AK) |
| Yakutat Airport (AK) |
| Former North Pole Refinery Property, North Pole (AK) |

Thanks,

Alex

Hi Amanda,

I know you spent a bit of time on the original file. I was going to suggest, if you had time, that you perhaps add a column with your notes to the right, and then we send to Linda Gaines for her awareness comment. I assume that ERG can make the data updates to the Federal Agencies layer. Ex. 5 Deliberative Process (DP)

Mike,

My apologizes for not getting this information to you sooner. The attached spreadsheet should clarify the handful of facilities that you had questions.

Appreciate if you send us the web link and any press release so I can share it with the DoD Components.

Hi Ex. 6 Personal Privacy (PP)

I hope you are well. I wanted to let you know we are getting closer on our National PFAS Data Explorer release. Included in that release will be the file that you provided for our use, with a few minor corrections. I don't think we received any comments from you when we shared to proposed corrections in April.

The handful of facilities that are noted in red are ones that we found in the Report to Congress or that are on the NPL list that were not on the list you sent us Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP) Thanks.

Mike

**Subject:** FW: [Non-DoD Source] ECOS PFAS Caucus- Caucus & State Standards Calls, U.S. EPA Webinar on Analytic Tools

Michael,

Happy Wednesday. I know I am behind on providing you a review of our information for the PFAS Analytical Tool. It has been a little chaotic here.

I participate on the ECOS PFAS Caucus calls and during the last call it was mentioned EPA is hosting a webinar on the Tool. Is it possible for DoD to participate/listen to the webinar? I feel it may be helpful as we respond to your request for information.

Thanks,

Ex. 6 Personal Privacy (PP)

Following our call a few weeks ago, I had promised to send you a file noting discrepancies between various lists of PFAS sites. Attached is the file. We discussed having a meeting in the next 3-4 weeks to discuss the PFAS Analytic Tools. I know you have sent the link to the various DoD components. So our next meeting would be to:

**Ex. 5 Deliberative Process (DP)**

Perhaps you could forward this file along and propose some dates that we could meet. Also, we are happy to work on corrections prior to the meeting via email or phone. Amanda Pruzinsky is our technical contact on the lists. Thanks.

Mike

**Subject:** RE: discrepancy file for DoD

Hi Mike,

Attached is the current file.

Background: DoD sent us files with their "known or suspected" sites with PFAS. This was a little over 400 sites and overall seems rather inclusive. I've compared the names of these sites to 3 other sources:

1) DoD's report to Congress, which specifically identifies sites that had PFOA/PFOS detections above the LHA Caution-http://www.oea.gov/resource/addressing-perfluorooctane-sulfonate-pfos-and-perfluorooctanoic-acid-

pfoa < Caution-http://www.oea.gov/resource/addressing-perfluorooctane-sulfonate-pfos-and-perfluorooctanoic-acid-pfoa >

2) The NPL list of sites with PFAS detections
3) ATSDR's website of PFAS sites Caution-https://www.atsdr.cdc.gov/pfas/atsdr_sites_involvement.html < Caution-https://www.atsdr.cdc.gov/pfas/atsdr_sites_involvement.html >

In the attached file "FF_check" sheet "Crosswalk" the orange and red names are ones I need help cross-walking. I'm trying to figure out if they are named differently in the DoD known/suspected file or just not in that file at all. Since the DoD known/suspected site list should be rather inclusive, I would think all of the sites on the other lists should be in that file and where they aren't we are trying to determine why. The NPL locations are sometimes very site specific, so it could just be identifying the actual base. I provided a ReadMe sheet for help as well as the NPL and DoD overall files for help.

Basically, for the attached sheet "Crosswalk" why are sites listed in columns C-E (DoD report to congress sites, NPL sites, ATSDR sites), not in column B (DoD's overall known/suspected list)?

Best,
Amanda
