11/2012

~~Peter~~
866-503-5711
178-433-9781

90% design includes more info on
- Dredging / on-water operations
- requiring silt curtains
- Water quality mon.
- more on cap design than anticipated

Cap - mercury → will just make conservative assumptions instead of treatability study

Pore water samples → will take, will use results ~~to~~ as check on above

Schedule { most dredging in July
Cap to be complete by mid-October

Will be working on CHASP
Permits

Will be putting out 2 RFPs in Dec.:
T&D
Dredging / stab. / capping → selection by 3rd wk. of F

Mtg w/ DEP on 11/29
- CPA gave outline of project
- DEP has better understanding
→ air permit equiv. may not be needed
- stab. facility will need to apply for a new permit, to handle non-maint. dredge
