Subject: Passaic River RM 10.9 RA- Work Schedule May 6, 2014

Mike, Ben:

GLDD will meet on Tuesday May 6th at 7:00 AM. Work scheduled for Tuesday includes installation of the GPS system in preparation for deployment of Habitat Layer. GLDD will wait for approval of the armor stone by CDM/EPA prior to deployment of the Habitat Layer.

Work conducted on May 5th included maintenance and setup of barge equipment. CDM was contacted at 1:00 PM to inform CDM that GLDD would be adding some additional armor stone between the edge of the cap and shoreline. This stone was added to protect the cap edge near the pump station discharge located north of the community center. CH2M Hill took pictures of the additional armor stone and will provide for CDM review.

Please feel free to contact me with any questions.
