Arrangements have been made to make sure the mobile unit is deployed tomorrow.

Stan,

I am in a meeting for another hour, but I heard from the field that the mobile air monitors were not in place. Regardless of the location of the dredge, the mobile must be deployed, if downwind is covered by a permanent station then perhaps utilize them in the park.

Please ensure the mobile monitors are deployed tomorrow.

I'll be on-site around 0930. We can discuss after 4:30PM if you'd like.

Mike
