Subject: Comments on WindWard bioaccumulation VBA code
2014-02-09 WindWard SS Bioacc Model Code (kjf comments).docx

Rob,

I've attached a memo with comments from Kevin Farley based on his review of the steady state bioaccumulation model. We thought it would be helpful to make your team aware of these comments before Thursday's meeting. Stephanie asked that I send it to you and let you distribute it to your team.
