Hey Rob,

We still need to look at the mapping shapefiles prior to the meeting and the additional information that we requested on the interpolations:

- The total area for each of their groups (1, 2, 3a, 3b, and 4)
- The number of points for each of their spatial and time groups (1, 2, 3a, 3b, and 4 for ~1995 and ~2010)
- Probability distributions comparing the five spatial groups for the two points in time.

Can you provide this stuff before the end of the week? Thanks

Eugenia:

I can give you a call to discuss but we have not mapped the other COPCs that are listed because there is a significant amount time and effort required to do so and if the EPA disagrees or modifies the CPG approach then it is a major do-over. However, We have recently started Total PCBs but W would not have that done until late October...

Rob

Rob,

We made some modifications to the Agenda -attached. See you on the 26th at 10:00 AM.

Thanks,

eugenia

Eugenia & Stephanie:

The CPG modeling team can do September 26 at Mahwah.

Thanks

R/

Rob
