Subject: 2014 Annual Network Plan

Hi All:

The purpose of this email is to provide to you the finalized 2014 Annual Network Report that ARB drafted, which includes monitoring in your district. As required in 40 CFR 58.10, the report is to be made available for public inspection for at least 30-days prior to submission to the U.S. EPA. To meet this requirement, the ARB posted the report on the internet, which is available at: http://www.arb.ca.gov/aqd/amnr/amnr.htm. Also, the ARB will be announcing the availability of the report via listservs and in the "What's New?" link on ARB's home page. Limited hard copies of the report will also be available at the Cal-EPA Headquarter in Sacramento.

In the past, districts have made the report available through their county libraries, district offices, and district web pages. Also, districts have announce the availability of the report via their local newspapers. Please announce and post the report as you best see fit for your district. Please let me know if you have any questions and I thank you in advance for your cooperation.

Regards,

Pheng Lee
