---

Chris -

I expect that you will have a role in advising/commenting as to several of the relevant issues on this matter as well. I will be attempting to contact you by phone today to discuss the best way to go about involving you and making sure we have your input so as to expedite communications, especially given the very short time frame we are facing.

Thanks.

Subject: EPA Letter on Marquette CR 595

Bill -

Attached please find a letter and related attachments received from EPA yesterday on our MDEQ wetland/stream permit application for the proposed Marquette County Road 595. We have 30 days from yesterday in order to resolve the outstanding EPA objections regarding minimization and mitigation of project impacts, many of which involve fisheries (stream) and wildlife concerns that I expect require direct MDNR involvement. It is critical that we receive input from MDNR on many of these issues as soon as possible in order for us to prepare the appropriate and responsive plans.

I will be attempting to contact you this morning by phone to discuss this. Or, if you have a few minutes to review these documents and respond to this email and let me know if you might have time today to talk (and pick a time?) I would appreciate it. Thank you.
