Martin and Sandy, FYI on the status of this JD.

We remain on track / supportive of USACE's JD at Climax mine. Currently we're checking some specific Q's with OGC and OW, checking in with CDPHE, and again meeting with USACE. (b) (5) (DP) [redacted]

SENT ON BEHALF OF RAY LAZUK

Hello Karen and Lesley:

As we discussed at our October 6 meeting, we are providing the regulatory ELG and permitting material that we referenced as part of our presentation at the meeting. We would be happy to address any questions that remain, and would very much appreciate the opportunity to discuss your conclusions in a meeting or teleconference following your review of this material.
