Hi Karen and Linda and Steve,

Good luck on your new duties, and thanks for reaching out to us. Sorry I've been delinquent in getting back to you on Bishop Tube.

For Bishop Tube, we are not all on board internally with moving the site to EPA under the remedial program at this time. I still want to go over the pros and cons more internally, but for now we are continuing to work with the prior property owners on a site characterization and intend to continue to work the site through our state superfund program. The site is listed on the Pennsylvania Priority List for remedial response, so there is an expectation that we are going to follow-up through our state program absent some reason why state response won't work and federal action is needed.

Hi George! I am trying to tie up some loose ends before I move to stand up the new Enforcement Division here in the region, and I wanted to check to see about any decision you may have made about whether or not you'd be amenable to the possible listing of the Bishop Tube Site on the National Priorities List. You mentioned that you needed to coordinate with your folks when we talked last month. Ex. 5 Deliberative Process (DP) Ex. 5 Deliberative Process (DP) that may benefit from further discussion as well. Can you let me know what the State's position is on both of these sites? Thanks.
