Subject: LOOP Brine Discharge Outfall 004

Taim,

I need some inputs from you to justify why LOOP brine discharge have no adverse effect to federally listed species. Per Stacey and Tina's notes, we need to address:

CORMIX modeling,

How close to shore will the plume get?

Effect on piping plover, red knot, and food source off shore

Prey species and turtles

Please provide your inputs asap. Stacey likes to see a draft BE by March 8. Thanks.

Isaac
