Subject: Response to Comments for the Region 4 draft Kampachi aquaculture permit

We're pushing 7,000 comments now and many of them are requesting a Public Hearing. Does HQs have contractor resources available to work with us in helping us with logistics (e.g., secure a venue, set-up, ADA compliance, transcription/recording, etc.)? The last hearings we did for NPDES in Region 4 was for the coal permit objections that we had in Kentucky. HQs contractor support was provided and essential for the success of those hearings. We are requesting the same type of contractor support for this permit's hearing. Please let me know, as we want to keep this action moving forward. Thanks!

Chris
