I don't see any records in our old database for "LOOP" – perhaps another name or if you have a letter with more information I could search again.

Subject: LOOP Applicability Request to Enforcement 10-14-08

Cindy,

I am looking through our old electronic files and noticed a file labeled “LOOP Applicability Request to Enforcement 10-14-8.” The file appears to have been saved or modified on 10/31/11 – but that may be the date we saved it to this folder. LOOP is a deepwater port that constructed circa 1980ish. The facility does not appear to have an EPA issued Air Permit but there is water permit information. Do you have any information on LOOP as it relates to air emissions? Or, any air discussions EPA may have had with LOOP?

Thanks, Melanie

Melanie Magee
