Ashley,

At our meeting last week the question came up about de-listing and Walter said probably not this year and maybe not at all but the property would be reclassified. To that we responded that we were concerned about building out the site and again Walter responded that wouldn't affect the build out with documentation/restrictions in place. We then asked if there were other sites across the country similar in nature to ours that were recycled into productive you. You offered to look into this for us and cite examples that we may refer to. Have you found any information?

Thank you in advance for your time and efforts. I look forward to hearing from you.

Regards,

Myralee
