Re: Request of Copies of Records

If possible can you photo copy the following information you have in your custody on Arsenic poisoning directly related to Arsenic contain in drinking water exceeding the maximum contaminant levels. This request is for all knowledge you have on how prolonged exposure over many years can cause skin damage, specifically white pigmentation spots on a persons body. Also any known problems that could cause prostate problems such as enlargement, urine flow problems and Cancer.

Please promptly get back to me as quickly as possible with all documents you can mail me back as "confidential mail".

Thank you

Fred
