Draft for review:

Asbestos TSCA SACC Meeting April 27-30, 2020. EPA will hold a Toxic Substances Control Act Science Advisory Committee on Chemicals (TSCA SACC) from April 27-30, 2020. The FACA meeting will peer review EPA's draft risk evaluation for asbestos. This will be a virtual public meeting, with participation by phone and webcast only, and there will be no in-person gathering for this meeting. The TSCA SACC provides EPA independent advice and recommendations on the scientific basis for risk assessments, methodologies, and pollution prevention measures and approaches for chemicals regulated under TSCA. At the meeting, the TSCA SACC will review EPA's draft risk evaluation and associated documents.
