Subject: Above ground storage tank expert

I've been approached by OCEFT to see if anyone has expertise in above ground storage tanks. If you or anyone you know might be able to help, please get in touch with me. I don't have any details about the nature of the tank or its contents, but I suspect this has to do with the recent chemical spill in West Virginia.

Thanks,

Craig

I apologize if some of you are receiving this twice. I seem to be having some Outlook troubles.
