Subject: Need Your Help Finding TR Citations

All,

I learned today that all references cited in the TR preamble, TSD, RTC, etc. need to be in the TR docket if we are going to use these materials to defend the rule when sued.

The attached files, one for each of you, contain one or more references that I hope you can track down on Tuesday to obtain an electronic copy.

Let me know whether or not you will be able to do this.

Please email all of the references on your list you are able to obtain to Murat Kavlak and cc Meg Victor and me. Please include in the body of the email the title of each of the references that you have attached to the email.

Thanks!

Norm
