RE: Minnesota Supplemental Labeling
Engenia herbicide (EPA Reg. No. 7969-472)

Dear Ms. Schmid:

BASF is submitting a proposed supplemental label for Engenia herbicide (7969-472) use in the state of Minnesota.

BASF is filing this application voluntarily in response to Minnesota's request. In doing so, BASF does not concede that Minnesota's December 14, 2021 order complies with state or federal pesticide law, including the requirements of Minn. Stat. § 18B.26 and FIFRA § 24(b), and does not waive any of the rights available to it in any forum to seek relief under Minnesota law, the Federal Insecticide, Fungicide and Rodenticide Act or any other source of law.

Also please note that it is BASF's intention **NOT** to incorporate this proposes supplemental label language into the full Engenia Herbicide Master label. The included expiration date of December 20, 2025 will serve to limit the use duration for this supplemental labeling.

Included with the administrative documents are the following:

- EPA Application form 8570-1
- Proposed Engenia herbicide MN supplemental label

Thank you for your assistance with this matter. If you should have any questions, please feel free to call me at (919) 225-9220

Regards,

PII
