---

I have attached the draft PermaFix Marssim work plan for your review as a PDF and a WORD document in case you want to enter comments directly into the document.

The plan is based on classifying the site as presented in the PermaFix May 29, 2014 letter that is under agency review. Although the agency comments on the classification have not been released, the majority of the Marssim work plan stand by itself as it isn't dependent on the site's classification.

Please contact me if you have any questions.

Ellis
