Game Plan

- Test Procedures | fullblown test
- Pre-Outage Test
- Post Outage Test (2)

TOPS
35500

Testing Requirements

initial test submit bids ramp up to 950

30 day post test

η HP (across both CV + SV)

Wheelpower

throttle flow
[cross calc w/ cord flow nozzle

test tolerance

test conditions VWO, target 2400psi
may be throttle reduced
6,900,000 lb/hr
