Subject: new aldicarb request from EFED
Location: Microsoft Teams Meeting

Start: 9/24/2020 12:30:00 PM
End: 9/24/2020 1:00:00 PM
Show Time As: Busy

Required Attendees: Hansel, Jeana; Santiago, Sergio; Hendrick, Lindsey; Wozniak, Gerald
Optional Attendees: Kaul, Monisha

Hi Sergio,

Jeana, Lindsey, and I have been working with RD for about a year on a PRIA action for aldicarb's "new use" in citrus in FL and TX. EFED has a request now for BEAD to assist with refinements to their drinking water model. We are roping you in per Monisha's request to include you in the discussion and to have you assist with this work.

This work is exactly the same request as what was done recently for another infamous organophosphate. It might be helpful to skim through that finalized memo found here. The methodology and information that BEAD needs to provide are the same, or at least, will not be very different.

There is a chance that BEAD will NOT have to complete this task. However, I was afraid that we would lose valuable time waiting to find out for sure. As of right now, a finalized memo would be needed sometime in mid-November to meet a new PRIA date of 14-December.

I plan to type of some notes early this afternoon, so you have some context of this "story." Stayed tuned for more details!

Rebeccah
