Subject: FYI: Pebble Update from USACE and Review Team
Pebble Newsletter_3.pdf
Pebble FEIS letter prep and meeting schedule_Draft 062420.xlsx

Chris and Michelle,

Just a quick Monday morning update on where we are in the process with Pebble. The review schedule is attached and the review team shared the following message with the career leadership team today. The pdf attached is from the USACE and below I have a Law 360 article which includes the statement from Senator Murkowski. We will provide an update to you all early next week (M,T) but if you have any questions today please let me know.

As expected the Pebble Final EIS was released on Friday, July 24. Our NEPA team is busy reviewing the document. The Corps EIS website has been updated to include the Final EIS, recent Requests for Information to Pebble, the latest newsletter (which is attached), and an updated Department of Army CWA 404 permit application. The Corps website also provides an updated estimated ROD timeframe of Fall 2020.
https://pebbleprojecteis.com/

We look forward to discussing the review with you all at our scheduled meetings. As always, please let us know if you have questions.

Alaska Mine On Path To Key Permit After Army Corps Review
