KEEP OUT OF REACH OF CHILDREN

CAUTION See below for additional precautionary statements.

FILL LINE

STOP: READ ENTIRE LABEL BEFORE USE.

FOR OUTDOOR USE ONLY.

DIRECTIONS FOR USE

1. Locate fly source outdoors. Common fly sources include garbage bins, compost piles, dog runs or kennels, and campsites.
2. Turn plastic cap counterclockwise and pull up to open.
3. Fill bag with water until water reaches the "Fill Line".
4. Hang trap outdoors near fly source with included plastic tie to attract flies away from outdoor living spaces.
5. Attractant in trap will dissolve in water, sending out an odor to lure flies into trap.
6. Replace after 30 days or when trap becomes full or contents dry out.

USE TIPS

- Flies are more active in warm weather conditions. In cooler temperatures, hang traps in sun-exposed areas to increase effectiveness.
- Hang trap in well-ventilated area to avoid odor.

STORAGE AND DISPOSAL

Storage: Store in cool, dry place out of reach of children and pets.
Disposal: Nonrefillable container. Do not reuse or refill this container. Place in trash to dispose.

PRECAUTIONARY STATEMENTS

Wash thoroughly with soap and water after handling.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

Questions or Comments? Call 1-800-887-3524 or visit our website at www.blackflag.com

GUARANTEE. If you are not satisfied with this product for any reason, send your written request for a refund to the address below, together with the dated store receipt showing the price you paid. Please allow 6-8 weeks for processing.

Net Wt 0.42 oz (12 g)

MANTÉNGASE FUERA DE ALCANCE DE LOS NIÑOS

PRECAUCIÓN ¡Consulte abajo para conocer las declaraciones preventivas adicionales.

LÍNEA DE LLENADO

ALTO. LEA TODA LA ETIQUETA ANTES DE USAR.

SOLO PARA USO EN ESPACIOS EXTERIORES.

MODO DE EMPLEO

1. Localice la fuente de las moscas en los espacios exteriores. Entre las fuentes de las moscas comunes están los botes de basura, las pilas de composta, los senderos o casitas para perros o los campamentos.
2. Gire la tapa de plástico hacia la izquierda y jale hacia arriba para abrir.
3. Llene la bolsa con agua hasta la línea de llenado.
4. Cuelgue la trampa en el exterior cerca de la fuente de las moscas usando la correa de plástico incluida para alejar las moscas de los lugares de actividades al aire libre.
5. La trampa con atrayente se disolverá en el agua y despedirá un olor que atraerá a las moscas a la trampa.
6. Reemplace después de 30 días o cuando la trampa esté llena o el contenido se haya secado.

CONSEJOS SOBRE EL USO

- Las moscas están más activas cuando el clima está cálido. En temperaturas más frescas, cuelgue las trampas en lugares expuestos al sol para aumentar su efectividad.
- Cuelgue la trampa en lugares bien ventilados para evitar el olor.

ALMACENAMIENTO Y ELIMINACIÓN

Almacenamiento: Guarde en un lugar seco y fresco, fuera del alcance de los niños y mascotas.
Eliminación: Envase no rellenable. No vuelva a usar ni a rellenar este envase. Tírelo en la basura para eliminarlo.

DECLARACIONES PREVENTIVAS

Lávese muy bien con agua y jabón después de manipularlo.

NOTA: Hasta el grado que sea compatible con la legislación pertinente, el comprador asume toda la responsabilidad para seguridad y uso que no estén de acuerdo con las instrucciones.
