Hi Ronna: Can I share the Senators' letter with Illinois EPA's drinking water program for context? I believe Centreville is part of the Illinois American Metro East system which gets its water from the Mississippi River. I want to see what information Illinois EPA has on Centreville drinking water.

Tom

Subject: FW: Letter from Senators Duckworth and Durbin requesting assistance for Centreville, Illinois

Please find attached a new letter from the Illinois senators requesting EPA's assistance helping Centreville, Illinois with its longstanding flooding and sewer challenges. The letter will be assigned to Water Division for response, but I expect that ECAD will provide input.

Please share this with anyone I've missed and let me know if you have any questions,
