Good morning everyone!

NDEE provided the various e-mails and associated information we discussed during yesterday's call. I am preparing some notes for those that weren't able to attend that summarizes generally what was discussed and will send that along later.

Chris – please share as you feel appropriate with ORD contacts. I don't know that they would be interested or find the first two attachments helpful, but the Corteva notes may contain some points of interest – although I think they heard the gist of it during yesterday's call.
