Importance:	High

Hey Scott, could we get the password so Rob can apply the barcodes and do the bates numbering?

Thanks, jon

Importance: High

Jon,

These files are all right protected so we can not apply our AR barcodes or bates numbering to them. We would need either password to work with these files or a non password protected version of these reports.

A file has been sent to you

from smacmillin@brwncald.com via Hightail.

Jon,

Per your discussions with Carrie McGowan, I am providing a link to Volume I of the LCP RI Report, dated July 2013. Please note that an "Revised Final" version will be provided to you later that will address formatting issues that exist in this version.

Please contact John Hoffman of Ashland or me with any questions or comments.
