Yeah, those. Thanks.

Ps, have you been out to see what Praxair has done? They've finished their construction and I've been meaning to drive over to the site to make sure they haven't blocked anything important. I was out there about 6 weeks ago and it looked fine.

You mean the building monitoring reports where we take the photos and do hand held mercury air monitoring? I do not know how many I have electronically. I will check.

At least for today (sorry to keep bugging you). Can you send me the air monitoring reports in electronic form? I'm going to post those on the LCP site.

Thanks, jon
