March 30, 2015

thursday at 4.

Oct 20 fumigation. I unit upstairs. Symptoms. put him in touch w/ ATSDR. Additional summer carrier sampling. Summer includes methyl bromide.

develop a plan to ventilate the bldg. doing research. Unit J.

"rebound effect"
zero. keep ventilating.
If zero on field instruments, then go to summer!

Chris working on a flyer.

- 8 privately owned
- 14 times shows controlled by Sea grant.

Chris Semenza: Proposal to ATSDR. Oct to now. Anyone who worked in the bldg. First responders. ATSDR & Epi Aid. Can only be requested by VI DOH. DOH happy to have ATSDR there. Concurrence in DOH. ATSDR & Thursday this
Epi Aid - program of professionals from ATSRR. Vacations + present people.
October - March. ATSDR wants to go to before Oct.

St Croix: CID trying to get info.

Applicator said he's been using this for years.
↳ Mr Rivera. he used it before. Applicator for 13 yrs.
"I've been thinking doing this for years..."
