Subject:	Closing Report: 55-KER-17 (52-year-old-male admitted to hospital after ingesting gopher bait containing strychnine)
Date:	Monday, July 17, 2017 4:51:05 PM
Attachments:	55-KER-17 Closing Report.pdf

On July 13, 2017, a 52-year-old-male ingested 6 tablespoons of Gopher Getter with .5% Strychnine on a bet. The 52-year-old-male experienced a single seizure and leg cramping. The 52-year-old-male was transported and later admitted to San Joaquin Community Hospital (Bakersfield, CA). The 52-year-old-male denied self-harm.

Due to the nature of the incident, WHS did not require an investigation to be performed for the episode. A Pesticide Episode Notification Report and 15-Day Report will not be completed for this episode.
