4/4/16

Jacylin

- called all
- 65% response
- Very much mom & pop shops
- only 2 melting raw materials
  → not sure if right ppl

Zach

- Baghouse on one furnace inside bldg.
  Fan for neg pressure in furnace, then dilute w/ room air. That goes through baghouse
- Method 0061 can produce total chrome.
- As far as he knows, he will be looking at recipes. CBI issues.
  → if find out recipe name, could look up.
- OR MS, 0061 inlet & outlet
  ↳ want to not do chrome out. →
  Doing 3-16hrs runs. 100K?
  → no front half/back half for chrome
  → PM front half/back half.

Propose one that meets at least 1ppm

IMT call

- Present soil sampling ideas w/ key members of interested community folks. Trust is low.
