Hello Marcia,

Thank you very much for discussing this project with us. We appreciate your expertise. Please see the attached HWIW project source test results. As we had indicated in our discussion, we are under a lot of pressure to finalize this project. How quickly do you think you could get back to us regarding these results?

Thank you for your time and consideration regarding this project.

Sincerely,

Angela Shibata

Angela and Andrew,

Thanks for discussing the HMIW project with us on Tuesday. I don't recall getting the follow-up information from you. I think you were going to share some of the info that the source provided? Thanks.

Angela,

I am at a conference this week so next week looks better. I hope that schedule works for you, but let me know if you need to counter. I invited Amy Hambrick too, she is the program lead.

Hello Marcia,

I just wanted to follow-up with you regarding scheduling a call to discuss the applicability and implementation of incineration regulations for pyrolysis units (more specifically for medical waste processing units). Are you available the first week of October?

Thank you very much for your time and consideration.

Angela Shibata

Subject: Federal Incineration Requirements

Hello Ms. Mia,

Lisa Beckham had referred you to me regarding applicability of the incineration regulations to pyrolysis units and how we would go about implementing those requirements to a system that is not a traditional incinerator.

I was hoping that we could schedule a quick call later today, would you be available?

Thank you,

Angela Shibata
