Metals

Keith Johnson 5/31/16 - Bullseye update

- Sent MAO thursday
- Called Leah at noon on Friday saying wouldn't sign.
  - → recital language they weren't happy with
- New terms → lead off the table, controlled, Mn, Co, Se, some allowance [redacted] in unfiltered is ok if they make a request for a safe level & amend or approve.
  - → lead off table. No safe level of lead
- Don't know where Bullseye is on terms.
- Next couple weeks may have four furnaces connected.
- End of July will be big baghouse.
- Baghouse monitoring
  - no failure.
- Passed Method 5, preliminary.
- Will think about.
- Restarted baghouse but haven't used metal HAP yet.

- Interesting test results
  -

- Rail[redacted] car from BC
