Subject: emissions inventory request

Fran,

We're working on your request and can get info to you by COB tomorrow.

Donna

Subject: Request for 2020 annual EtO facility wide emissions data for four facilities

Tonya,

As we continue to prepare for the EtO community meetings, it would be helpful for EPA to have the 2020 annual EtO facility wide emissions data for the four Texas EtO chemical facilities on the OIG list – Indorama, Eastman Chemical, the Shell Technology Center, and Midwest Sterilization. We understand that the QA/QC review of the 2020 EI data may still be underway and that the 2020 EtO emission numbers for these facilities may still be draft.

Please provide these 2020 EtO EI numbers to us and let us know what the timeline may be for these 2020 EtO EI numbers to be considered final.

Thank you for all the work that TCEQ has completed to work on controlling air pollution in your state.
