Curious if you have thoughts on me setting up individual team meetings with each of the Intergov teams, in addition to the all-hands on Monday... to provide more one-on-one time with each. No rush on this but appreciate any input!

I think that's a great idea. The teams will really appreciate it. Now that you've met the managers and will meet everyone at an All Hands, scheduling individual meetings makes sense. 👍 □

Hi! Wanted to let you know Matt K and I connected on ECOS and he's willing to help out through the ECOS Spring Meeting. We've already started the process to announce a detail and bring someone in behind Andrea. The goal is to have someone named, if not on board, by the time the Spring meeting occurs to be able to transfer responsibilities.

Slight change of plans. Radha and I are thinking we might want to merge our calls into a single call for all elected officials (intergov + congressional). Total attendees est. around 150, could be less or more.

Wanted to flag that we just learned that there is a limit to how many emails the House will accept. All the Senate plus 1/3 of the House received the invite. Some of the invites did get through because we received questions. Latonia is working to resend the invite in smaller email sets unless you think otherwise. Was thinking best to send the invite than not. Sorry for the last minute flag.

Statement

EPA is committed to following the law and using the best science to people from lead in drinking water. Yesterday, the agency sent two actions regarding the Revised Lead and Copper Rule to the Office of Management and Budget for interagency review. These actions are part of the agency's ongoing review of the Lead and Copper Rule and address changes in dates consistent with the Biden-Harris administration Executive Order 13990, as well as the Regulatory Freeze Pending Review Memorandum and the Safe Drinking Water Act. The details of these brief notices will be made available in the near future after OMB completes its review.

Exposure to lead can cause irreversible and life-long health effects such as decreasing IQ, focus, and academic achievement. It is essential that EPA review the Lead and Copper Rule now to ensure that the agency's actions are protecting current and future generations from lead in drinking water. As EPA's review continues, the agency looks forward to engaging with communities, states, local governments, utilities and stakeholders in a way that ensures all voices can be heard and all input is considered.

Thought we might want to go around with introductions by region and find out a little bit about each person, background, years at EPA, maybe a fun fact and how Congressional/State/Local work is their region. Or something like that. Thoughts?
