1989, 1994, 2000 ROD Plus 2 Addendums
1990 MOU between EPA & IDNR

OU1 Soils Remedy - Excavation, On Site Bioremediation, and On Site Disposal
OU2 Groundwater Remedy - Pumping, Air Stripping, Discharge to Surface H_2O
BTEX - Paint Related
Metals - taken care of, in on-site Landfill

They are posing turn off P&T, implement bioremediation on-site, implement bioreactive barriers at site south boundary, investigate surface water body in NW portion of site.

Last ESD gives criteria for shut down of P&T which they might meet with bioremediation

We think this would be a ROD Amendment - they barely want to do ESD.

They ~~think~~ want site deletion.
