> Dear Regional Wetlands Managers and Staff:
>
> As discussed on the regional call yesterday, Acting Administrator Wheeler is sending a letter to all the governors and tribal leaders regarding EPA's efforts to facilitate assumption of the 404 permitting program. The letters mention the Army memo on Retained Waters sent in August of 2018, EPA's FACA on assumable waters, EPA's rulemaking effort that is underway, and notice that we intend to hold input meetings with the states and tribes this fall. These letters are currently being prepared for mailing.
>
> Please ensure your management and staff are aware that these letters are going out as they may receive inquiries about the letter or the rulemaking. If you have any questions, please feel free to contact myself or Michael McDavit about this effort. If you have specific questions about the 404(g) update rule making effort, please contact Kathy Hurld (hurld.kathy@epa.gov) or Ruth Chemreys (chemreys.ruth@epa.gov) who are co-leading the regulatory workgroup.

Thank you,

Mindy
