> Hi Michele,

> We are writing about the EPA's criticism of the Navy's workplan and were hoping you could provide us with the URL to the attached letters/comments, as well as any other input the agency would like to offer about the problems it has with the Navy's proposed methodology for re-

testing the shipyard, in general, and Parcel G specifically. Working on a very tight deadline. Story will go up online later this afternoon and will be in the paper tomorrow.

Thanks,

Cynthia
