Nancy:

I have the information you requested burned to a CD. However, I do not have your mailing address. If you will send me that information I will get it in the mail to you ASAP. Also, unfortunately since we last spoke, I am now prohibited from issuing a report or publishing a scientific paper on the triggered seismicity related to the Guy-Greenbrier earthquake swarm. This includes being a co-author on the paper you were expecting from Steve and I. However, he is going to go ahead and publish it in his name only. So, all I can do at this time is send you the CD and answer questions over the phone. Sorry for the inconvenience and if I can be of further assistance, please let me know.

Thanks.

Scott

Hi Scott,

I wanted to thank you again, for all of us, for taking time to visit with us. It was very helpful and informative.

I was wondering if you have had a chance to get the CD you mentioned in the mail to us, yet? My coworkers are chomping at the bit to see the information.

thanks again,
Nancy
