Subject: Access and Notification

Cordel, David and Doug –

I have notified all parties that require notification for access. Most of the consent for access forms do not require advance notification, but have provided it for owners with larger parcels, specifically Summit County, Pace Properties, and Park City Municipal (their interim city manager). I attempted to notify Charlie Gillmor but his email was returned as undeliverable. My understanding is the Florence Gillmor parcels have been sold to the County, but I believe there are other Gillmor owned parcels. I believe we have access to all of them, and none (except for the Florence Gillmor parcels) require advanced notice, but I tried to notify where I have email contact information as a consideration.

We did have an access issue during fish shocking earlier this year up by Promontory Road, where someone gave our crew a hard time for jumping a fence. I believe this land is owned by Pace, and, although not required, I have provided notice today. If any situation arises where a property owner gives our crew a hard time, and the crew is unable to persuade the owner, please know that you have field discretion to not collect due to landowner concerns.

Thanks.

Rob
