Subject: no long with Schlumberger

Date: Wednesday, June 26, 2013 9:17:07 PM

All,

I resigned last Friday from Schlumberger Water Services, and started on Monday with CH2M Hill (same office building - only 1 floor up). I will still be doing groundwater modeling, only more project work and not as much training.

I still can be reached through my Yahoo account or my new contact details at CH2M.

Cheers,

Miln Harvey, Ph.D., P.Eng.
