IRIS February 2015 Update

IRIS
INTEGRATED RISK INFORMATION SYSTEM

The Latest News from EPA's Integrated Risk Information System (IRIS) Program

February Announcements:

EPA's SAB Announces February 20, 2015 Public Teleconference for EtO Review

EPA's Science Advisory Board announced a public teleconference of the SAB Chemical Assessment Advisory Committee augmented for the ethylene oxide (EtO) review to discuss its draft peer review report (dated January 2015) concerning EPA's *Evaluation of Inhalation Carcinogenicity of Ethylene Oxide (Revised External Review Draft – August 2014).* For more information about the public teleconference, please review the Federal Register Notice.

EPA Posted the Agenda for the February 25-26, 2015 IRIS Bimonthly Public Science Meeting

EPA will discuss key scientific questions that apply to a broad group of phthalates during the February IRIS Bimonthly Public Science Meeting. Meeting materials, including the agenda, key science questions, and registration information are posted online. The phthalates to be discussed include diisobutyl phthalate (DIBP), butyl benzyl phthalate (BBP), and dibutyl phthalate (DBP). In person registration has closed; however, to register to attend this public science meeting via webinar by visiting the IRIS February Bimonthly Public Science Meeting webpages.

EPA's SAB Announces Two Upcoming Meetings for Benzo[a]pyrene Review

EPA's Science Advisory Board announced two meetings of the Chemical Assessment Advisory Committee augmented for the benzo[a]pyrene IRIS assessment review: a public teleconference on March 4, 2015 and a

face-to-face meeting held in the Washington, D.C metro area on April 15-17, 2015. For more information about these meetings, please review the Federal Register Notice.

Have general comments for the IRIS Program?

In response to public feedback, EPA has opened a "General Comments Docket" to receive feedback that has broad applicability to the IRIS Program.
