No kidding....

I was trying to be diplomatic.....

In follow up conversations with our NOAA colleagues, I will clarify our position. I will also need to head off concerns in OLEM when they see this letter.

Hi Enrique,

I'd say "overstatement" is an understatement. This is a misstatement.

Thanks for forwarding.

Deborah Jordan

FYSA

This is an unfortunate overstatement:

" In our role on the Montrose Trustee Council, NOAA, along with EPA and the State of California, is working to complete restoration within the Palos Verdes Shelf and provide technical assistance to EPA on its ongoing investigation and remediation of DDT contamination at the deep ocean disposal sites."

Good Afternoon Everyone,

FYI - The final and signed response to Senator Feinstein's March letter about the DDT survey is attached for your reference. We sent this to the Senator's staff a short while ago. A number of folks have been engaged in this issue these past several months and I hope I included most of this email, but please share as needed.

Thanks,
Mike
