The only mark up is asbestos. Other comments are below.

Many of the asbestos comments carry over to others but I haven't noted that below—I think it will be clear if you look at asbsestos.

Thanks.

Tala,

Looking good Tala! You have done an amazing job ensuring consistency across the documents—I'm sure it was no easy task!

I started with Asbestos so in that markup I have some cross cut comments that can apply to all. Ex. 5 - Deliberative Process If you have concerns with any of the language I'm open to suggestions for improvement.

I also have some additional comments cross cut comments:

Thanks again Tala! Let me know if you want to find time to talk about any of these comments on Monday.
