Re: 5-day report for Pipeline P00547 10-2-21 spill
Platforms Ellen, Elly, and Eureka NPDES Permit CAG280000

Dear Mr. Howell:

In accordance with NPDES permit CAG280000 Section IV. (I)(6)(i) this letter shall serve as the written submission follow-up to our initial report of a crude oil spill on October 2, 2021 from the Platform Elly pipeline.

These are the facts we know and can share at this time. Crude oil leaked from the pipeline segment P00547 originating at Platform Elly. The leak was discovered at first light on October 2, 2021. The pipeline was shut in and a vacuum was initiated to stop the leak. Immediate agency notifications were made, and an emergency response was initiated.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. See 18 U.S.C & 1001 and 33 U.S.C. & 1319. (Penalties under these statutes may include fines up to $10,000 and or maximum imprisonment of between 6 months and 5 years)

Should you have any questions or require any additional information, please contact me at (562) 684-3008.

Sincerely,

Diana Lang
