Linde
Interceptor Well System - hydraulic control 1 MGD
ICM HSWA Permit and NJPDES permit
↳ Interior and on-site
focus on control of perimeter
PERIMETER
- Salem Canal RFI
surface water
sediment
rpt
Del. R.
sheetpile
ICM barrier walls
will complete 100% hydraulic control
sheet barrier walls
ICM

Interior
↳ Data Gap Sampling
↳ Comments on RFI, submitted to
↳ DNAPL Recovery ICM
Have studies to address various contaminant
Vapor Intrusion
→ investigation RFI → ICM
PFC investigation on-site
air dep off-site → impacted residential
2009 at that time only one
2016 add'l sampling - 48 add'l

Low response to requests for off-site sampling

Al Telsey
* EPA's website - everything under control
* NJ law applies to the site

- Mtg w/ Dupont and Township?
  - bring concerns to us
- Well depth > 65 ft

* Get Chemours to provide list of targeted residents

NJ Water - now filtering PFOAs

<u>Public Participation Plan Options</u>

1. Work like team? No
2. Traditional Plan - if so, then regular OPRAs
3. Any concerns will be heard and responded to in timely fashion
