SUBJECT: Kerr Glass PA

REFERENCE: K3-8303-10

5/20/83 4:08 Mr. Knipple was called (end of field week for DJM)

Plant closed Dec. 1982 but haven't dumped since 1974. Disposed of furnace demol. waste (glass) 1955-1974 in parking lot area now asphalt topped

Demol. waste is non-hazardous

Co. mfg. glass containers for canning etc (like Ball jars)

Glass generated by soda lime glass generating furnace. Bottles made on IS (independent section machine) by blow and blow process or press and blow

Only generated every 5 to 6 years 55, 60, 65, 70

Will call me back with name of local contact

NUS 443A 58 1182
